June 2022 will go down in the History Books!

Queen Elizabeth II will be the longest ever reigning monarch of the United Kingdom and the Commonwealth. Seventy years on the throne! That is something of an achievement. In the whole of my own lifetime (and many people I know) she is the only Queen I have known. It will seem strange when we have a new King.

What she has seen, experienced, and the influence she has brought to our country in seventy years is enormous. She promised to serve her country for the duration of her life and she is steadfast in her own Christian faith, which has constantly sustained her.

She has indeed been our "Servant Queen."

In contrast, Jesus lived on this earth for only thirty three years. However, over two thousand years later his radical influences and teachings remain the fundamental corner stone of our own faith in 2022. What a legacy! He cared about the marginalised, the sick, the poor, and told us basically to do the same. "Love one another as I have loved you."

As we celebrate our Queen's Platinum Jubilee, let us give thanks for a Queen whose loving concern for her people has been such a wonderful selfless gift to this country.

Let us also give thanks for Jesus, whose love for us led him to give the ultimate sacrifice for us - his life. That means we are forgiven and might have life everlasting. What better thing is there than for someone to lay down their own life, so that another might live.

Hallelujah! What a Queen! Hallelujah! What a Saviour!

**HAPPY PLATINUM JUBILEE TO EVERYONE!!**
